

# FROM BUILDER

# TO LEADER

Powered By:

This 5-week cohort program is designed to challenge and shift the mindset of participants from a builder to a **true people leader**. In each interactive session, participants will learn how to leverage industry-related leadership principles to implement into their daily work. Between sessions, participants will be assigned activities to practice their new skills. This program is designed for employees who supervise/manage people or are preparing to in the near future.

Upon successful completion of the AGC Nebraska Chapter accredited training program, participants will earn certificates of completion to demonstrate their understanding of core leadership principles.
